FULBRIGHT SCHOLAR SERVES IN HAITI

Barry Mickey, professor of social work and director of the social work program at The University of Findlay, has been awarded a Fulbright grant to lecture and

help develop an undergraduate social work program at the State University of Haiti, where he is now residing.

He is also conducting research on international adoption of Haitian children. Each year, United States families adopt 150-200 children from Haiti.

Mickey is one of many U.S. grantees who are traveling abroad for the 2003-04 academic year through the Fulbright program.

One of Mickey's goals during his year in Haiti is to establish a relationship with the State University of Haiti in order to bring Haitian students to The University of Findlay to study in the social work program. He plans to work with the Haitian government to see if such an arrangement can be made.

Coming to Findlay in 1992, Mickey was instrumental in helping UF's social work program earn national accreditation in 1995.

Mickey is the third UF faculty member to receive the Fulbright Award.

NEW FACULTY PROFILE: DR. JULIE MCINTOSH

The College of Education has welcomed **Dr. Julie McIntosh** to its ranks as an assistant professor of education.

A 1990 graduate of The University of Findlay with a degree in biology and secondary education, she went on to earn her master's degree in 1994 and her doctoral degree in 2002, both from Bowling Green State University.

In 2002, Dr. McIntosh taught at Bowling Green State University.

Previously, she was a science teacher at Findlay High School from 1997-02. She held the same position at Bowling Green High School from 1992-97. Dr. McIntosh was an environmental specialist for the Ohio Environmental Protection Agency, Northwest District Office, from 1990-92.

She is a member of numerous professional organizations, including Phi Delta Kappa.

A member and vice president of the UF Alumni Board of Governors, Dr. McIntosh was the recipient of the Old Main Award from UF in 2001.

FACULTY IN PRINT

Many members of The University of Findlay faculty are published authors. Highlighted here are just two of them.

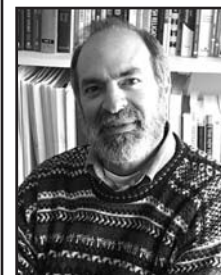

Dr. Lisa

Dutton, dean of the College of Health Professions, wrote *Physical Therapist's Clinical Companion*, 2000; co-authored a refereed journal article

on faculty use of instructional technology in the university classroom in *Journal of Educational Technology Systems*; reviewed *Expertise in Physical Therapy Practice*, 1999, *Essentials of Emergency Care for Physical Therapists*, 2002, *Professional Guide to Signs and Symptoms*, 2000; and served on the advisory board for *Anatomy and Physiology Made Incredibly Easy*, 2000.

Dr. Louis Stulman, director of religious studies and professor of religion, has published the following

books: *Order Amid Chaos: Jeremiah as Symbolic Tapestry*, Sheffield: Sheffield Academic Press, 1998, and

Troubling Jeremiah, ed. A.R. Diamond, Kathleen M. O'Connor and Louis Stulman, Sheffield: Sheffield Academic Press, 1999. He has two more books accepted for publication in 2004.

UF ALUMNI CONSTRUCT BELL TOWER

William Hicks, William Nonnamaker, Richard Davies and James Houdeshell anticipated the celebration of their 50th year reunion at The University of Findlay and wanted to make a difference.

Earlier this year, the four alumni set out to restore the Old Main Bell and construct a tower in which to display the refurbished bell. Wanting their class of 1953 to lead the way, the men began soliciting funds for the project.

On hand to see the bell being placed into the tower were Myreon Cobb, director of physical plant; Jim Houdeshell '53, special assistant to the president; Jim Smarke '87; Richard Davies '53; and William Nonnamaker '53.

Construction workers mount the Old Main Bell on the newly built tower, located in the center of campus in front of the Gardner Fine Arts Pavilion.

The Old Main Bell was delivered to campus in 1886 from McShane Bell of Baltimore, Md. The 1,522-pound bell, which was ordered by then President Latchaw and cost just \$251, was put in place at the top of Old Main with the aid of ropes, pulleys and students. The bell was removed from Old Main due to structural concerns on July 31, 1991, and has been in storage since.

In addition to the class of 1953, the class of 2003 also contributed their class gift to the Bell Tower project. Findlay alumni from a variety of class years contributed as well, making the project a reality. Numerous contractors, such as Sausser Steel Company, Gosche Putnam Masonry, Northwest Masonry, National Lime and Stone and Architectural Alliance, also donated to the cause. The cost of the project, which was completed entirely with donated funds, was about \$90,000.

Throughout the summer, construction was done on the foundation for the bell, which was put in place on Aug. 27, in front of a crowd of faculty, staff and students. The Bell Tower will be officially dedicated during Homecoming activities on Sept. 20 at 11 a.m.

FACULTY VISIT MAZDA FACILITY IN JAPAN

Dr. William Carter, associate professor of environmental management; Dr. Jason Slone, assistant professor of religious studies; and David Wirt, adjunct faculty member in the College of Education and principal of Northview Primary School in Findlay, visited Japan this past spring as part of Dr. Carter's sabbatical. Dr. Fumiko Harada, special assistant to the president and professor of Japanese, made the trip with them.

Through Koara (Kelly) Takahashi, a former Findlay resident and now administrative assistant to the president of Mazda, the group was able to collect data from the Mazda Company in Hiroshima, Japan.

CAMPUS ROUNDTABLE DISCUSSION PLANNED

Universities in the Marketplace: The Commercialization of Higher Education will be the topic of discussion at the Campus Roundtable on Friday, Sept. 12, from 4 to 5 p.m. in Terry Conference Room, Alumni Memorial Union.

Written by Derek Bok, former president of Harvard University, the book is published by Princeton University Press and is available through OhioLink.

For more information on the Roundtable discussions, contact Gary Johnson at gjohnson@findlay.edu.

FLU VACCINES AVAILABLE

The Cosiano Health Center is offering flu vaccines on a first-come, first-served basis.

The cost is \$10 per person. No appointment is necessary, and the Cosiano Health Center is open Monday through Friday from 9 a.m. to 4 p.m.

MANY EVENTS MARK FIRST WEEK OF SCHOOL

Sponsored by the Office of Career Services, the Earn and Learn Job Fair helps students find part-time employment while they continue with their studies. Here, a representative from the HOSTS program at Washington and Jacobs Schools talks with a student.

Jenny Frankart, operations manager for the Millstream Area Credit Union (right), discusses employment possibilities with a UF student at the annual Earn and Learn Job Fair Aug. 28 in the Alumni Memorial Union.

Students enjoy the warm temperatures during the first week of classes this fall.

Doug Salvesson, professor of art, begins instruction in his Techniques of Watercolor and Works on Paper class.

It's never too early to begin studying, as these students are demonstrating in the Alumni Memorial Union.

UF/KAKE PROGRAM BRINGS JAPANESE STUDENTS TO FINDLAY

The University of Findlay is fortunate to be hosting 12 individuals from the Kake and Takahashi Educational Institutions in Japan from Aug. 19 to Sept. 10.

The visit is part of the UF/Kake Bridge Program, an exchange program between The University of Findlay and the two Japanese educational institu-

tions, designed to give participants cultural and educational experiences.

Earlier this summer, six faculty members and four students from UF traveled to Japan for a three-week visit.

During their visit here, the 11 students and one faculty member from Japan are studying in the University's Intensive English Language Program

and staying in the homes of Findlay families. They are participating in traditional UF student events, including the Arch Ceremony, and will enjoy visits to the Mazza Museum and the equestrian facilities.

The Kake Educational Institution was founded in 1961 by Tsutomu Kake and currently manages more than 20 educational organizations ranging from nursery schools to universities with graduate programs. Kake has a close relationship with its sister organization, Takahashi Educational Institution, which also manages several educational organizations including two universities.

Tsutomu Kake recently retired as general president of both institutions, leaving Kake to his son, Kotaro, and Takahashi to his daughter, Miyako. Both Tsutomu and Kotaro have received honorary doctorates from The University of Findlay, and Kotaro is a member of the UF Board of Trustees.

The program is organized locally by Dr. Fumiko Harada, professor of Japanese and special assistant to the president, and Dr. Hiroaki Kawamura, assistant professor of Japanese.

Eleven students and one teacher from Japan met with Dr. Freed on Aug. 25. Dr. Fumiko Harada (front left) is hosting the group.

2003-04 RESIDENCE HALL DIRECTORS

Work in the residence halls on campus takes a special group of people. Pictured here are Daren Lee, director of residence life (left), and Brian Treece, director of housing and Greek life (right), with this year's residence

hall directors: Julie Renner, Melissa Jensen, Steve Clark, Katy O'Connor, Josh Baker, Sara Hopkins, Jose Jiron and Whitney Haverfield.
